Style, innovation and comfort in breast pumps

Welcome to Spectra Baby Australia

There's a gap in the Australian market for a quality breast pump that can provide genuine support to breastfeeding women, at an affordable price. Spectra Baby, established in in South Korea in 1999 and sold around the world, are filling this gap. Our breast pumps are quickly becoming popular with Australian women eager to try a new breast pump with great reviews and a great price. Used in hospitals and homes around the world, Spectra pumps have finally made it to Australia.

Welcome to Spectra Baby Australia.

Performance

There are no comparable breast pumps that offer the power and performance that Spectra does. With unparalleled vacuum strength, Spectra breast pumps provide the suction that women are looking for to effectively express milk for their babies.

Good looks

Isn't it about time women had a good-looking breast pump? Women want a pump that fits into their lives - not something that looks like a medical device. Women tell us again and again that they love the looks of the Spectra pumps, and they love that their Spectra pump will look great out on the kitchen bench or the desk at work.

Affordability

A major selling point to the consumer is of course the price. There is no comparable breast pump on the Australian market that can match the quality and performance of Spectra breast pumps at these prices. Women need great breast pumps, and with Spectra Baby Australia, they can buy a great breast pump at a great price.

Innovation

We work hard to implement the features that women are looking for in a breast pump. From the massage mode to facilitate letdown, backflow filters standard in all pumps for hygienic pumping, capability of double or single-sided expressing, and rechargeable inbuilt batteries, Spectra breast pumps have the features women want. Check out the light-switch and timer on the S1 hospital grade pump!

"I need to pump several times a day to increase my milk supply. With the Spectra my letdown is faster, it's easier, quicker and more comfortable, and pumping is no longer something i dread doing. Thank you for making such a great breast pump!"

– Jo Lockhard

Spectra DEW 350

✓ **suitable for rental or sale**

"I've been surprised how effective the Spectra DEW 350 is. It's compact, has a soothing noise and most importantly gets the job done incredibly effectively. I am now recommending this pump to the breastfeeding women I talk to."

– Miranda Buck, IBCLC

Spectra DEW 350 Hospital Grade Pump

This is a brilliant breast pump that is winning the hearts of mums around Australia. For simple, effective performance, the Spectra DEW 350 can't be beaten.

Suction strength is adjustable up to a powerful 350 mmHg - it is a reliable, effective workhorse of a pump that does the job.

The Spectra Dew 350 has a soothing, whisper quiet noise that allows mums to express nearby their sleeping baby.

- Lightweight and without the bulk and fiddly pieces of other hospital grade pumps
- Whisper-quiet
- Backflow filter completely seals off the tubing and motor from milk, ensuring hygienic pumping
- Suitable for single or double-sided expressing
- Hospital grade pump suitable for multiple users

"The Spectra Dew 350 is the best pump I've tried. It's helped my baby boy get exclusive breastmilk since he was born, thank you!

– Gemma Sale

- Cycle time 30 ~ 46 rpm
- Motor life 1500 hours
- One year warranty
- Mains power or rechargeable battery

Also available: the Specra S2 (mains power only)

"Waking up on the hospital ward after a c-section to express milk for my premmie twins was so much easier with this pump, which was so comfortable and worked great! I never had to worry about waking others up because the pump has its own light and is totally silent. It even has a rechargeable battery so you can carry it around. Thank you so much Spectra!"

– Cora Allansson

Massage mode for letdown
Quick touch button to toggle between massage mode to encourage letdown and expressing mode for efficient letdown. Mums can adjust vacuum strength and cycle length in both modes.

Inbuilt automatic timer
So convenient for Mums needing to keep an eye on expressing times.

Inbuilt light switch
Perfect for Mums needing to wake up and express through the night.

✓ **suitable for rental or sale**
